An Affecting Incident.

related in a letter from New York, published in the Courier:

"Jane MacDonald, a young Irish girl, of eighteen summers, is now lying in the Tombs, produced a powerful impression wherever he sentenced to three years' imprisonment at Singi Sing. A few months ago she left her home and respectable friends in Montreal, to come to New have been directed to lay out Third Street York, allured by the promises of a woman who professed to be a prosperous milliner, willing to pay her expenses, and give her high wages -This woman belonged to the numerous band of decoys, who are prowling about all our cities for innocent victims. Jane found herself in an infamous house, where her ruin was effected, in spite of remonstrances and entreaties. Alone, among strangers, without money and without employment, she was almost heart-broken. A visiter, seeing her in so deeply dejected state, took for the Whig ticket.

Accounts from Ohio are of the like cheering church her family had been members. Untortunately, the clergyman was ill when the poor girl sought his advice and aid; and she saw only an unmarried relative of his, who, probably more from want of knowledge of the world's dangers and temptations, than with intentional unkindness, received her with coldness and distrust. Thus thrust forth upon the stinted charities of a selfish world, the friendless orphan fell rapidly. The vicious only would receive her them she wont

Soon after, she was arrested, on charge of collusion with other prostitutes, in stealing thirty Street in the city of Bangor, being lot numbered dollars from a visiter of one of their houses of twenty-nine, with a two tenement house standing infamy. Her trial was a very brief one; she had no counsel; and for thirty dollars, a young, creature, who a few months ago was innocent and respectable, and who a few months hence might be restored to virtue and usefulness, is consigned to the State Prison for three weary years. The account she gives of her trail touched my heart. 'They carried me into another room,' said she, 'and there were a great many strange faces; and one gentleman said something to me, but I did not understand what he meant, and another gentleman talked. It seemed to be all against me. They did not ask me anything, and nobody said anything for me, and then they told me I must go to Sing Sing for three years.' Do half the criminals understand the proceedings against them any better than this? I trow not. But this is what men call

> Elihu Burritt has a better fancy of the steam horse than we remember to have met elsewhere before. This is the way of describing him:

"I love to see one of these huge creatures, from his nostrils, fall gently back into his harness. There he stands, champing and foaming upon the iron track, his great heart a furnace of glowing coals; his lymphatic blood is boiling in his veins the strength of a thousand horses is nerving his sinews—he pants to be gone, He would 'snike St l'eter's across the desert, of Sahara, if he could be fairly hitched to it, but there is a little sobriety, tobacco chewing man in the siddle, who holds him in with one finger and can take away his breath in a moment; should be grow rest ve and vicions 1 am always deeply interested in this man, for begrimmed as he may be with coal diluted in oil and steam, I regard him as the genius of the whole machinery, as the physical mind of that huge,

And individual whom I have heard named is nominaso it will when it burns! We agree to that. in New York, Mr Davis [Loco] and Horace Greeley [Whig] agree that Clay will carry the State by fifty thousand.

We presume we have as much right to give the opinions of our friends, as the Editor of the Enquirer has to quote those of his own. A gentleman lately from Pennsylvania, who has been and corner in it, says, that it is a perfect farce to think of running such a ticket as the Locos have nominated, in that State! It must be beaten by almost any majority Clay and Frelinghuysen may choose to call for!

"Fizzling Out."

This expression may be " Greek," to some of our readers, but it was well explained by Mr Schenck of Ohio, at a late Whig meeting in Baltimore, who, in the course of his remarks, said that the democratic convention had been in session three days, and fizzled and fizzled, until they had completely fizzled out .

" To give an idea of what was meant by the term fizzled in his country, he would tell the not have the heart to refuse mercy to this poor anecdote whence it received its origin. As a Convention of the Whigs is notified to be holden at Augusta the 26th inst. for the purpose of nominating their candidate for Governor, the question is now frequently asked, who will be the nominee? No public journal in the State, that has come under my observation, has named any person in connection with that office

At this time every man of the opposition is confident of re-electing their candidate Hugh J. The sensible and reflecting in the party are opposed to Mr Van Buren's ultra Federal notions, such as his army bill,&c. which was recommended by H. J. Anderson in his message last winter, and cannot be drummed up to vote for this 'Van Buren Colt.''

We have seen by the doings of their Convention at Baltimore the 27th ult that "the party" have had enough of the cunning sire. The lieve that the nomination of Polk and Dallas confidence of the people has been more and more impaired since the defeat of Mr. Van Buren. The mercantile, the manufacturing and the mechanic interests of the country have had an opportunity to see, and they have seen and felt too, the deleterious influence of the measures of his administration. The speople have seen the practical effect of the tariff act which was passed after he was displaced from power.

Then, can men be so unwise, from love of party politics, so subjugated to party discipline, and so terrified at the idea of acknowledging that their party leaders have gone wrong, as to be willing to give their suffrage to H. Painful Rumors and Prompt Action.

The Mercury yesterday spoke of certain rumors that have been whispered about for a week or two past and which have engaged the attention of the city authorities, but which it has not been deemed advisable to make the subject of public remark. Since, however, the rumore have been alluded to by the Mercury there can no longer be anything gained by abstaining from remarking upon the subject.

There have been rumors that a number of persons living in this city in connection with others living in Hermon, Orono and Brewer, contemplated getting up a row with the Irish population here on the Fourth day of July and then proceed to destroy their church and to demolish their dwellings and drive them from the city .-This abominable project so disgraceful to manhood, to free citizenship, to true republicanism and to all the nobler qualities of the mind and heart, and the generous spirit of our political institutions has probably been nursed in the brain and fostered in the passions of saly a few persons. But these persons undoubtedly hoped that the infection might spread, enough so at any rate to intimidate many of our Irish population and cause them to leave the city.

The rumors of these eyil and disgraceful designs early claimed the attention of the city authorities and they are fully prepared to meet and suppress any riotous designs in the bud. All our citizens, native or adopted, will be protected. Mobilaw will be met by the stein and solemn rebake of our citizens. The whole mass of our citizens will, as many of them have done, offer themsalves as a special police to act by night or day in any emergency. Protection to life and property is certain and sure against the evil disposed and the unthinking. The prompt measures already taken and the unflinching determination of our citizens to frown down every thing like a mob spirit, have already, we think, rendered any out break quite improbable and most decisively and instaneously dangerous to those who might engage in it. It is now only important that our Irish population should keep sober, and quiet and peaceable; that our native citizens should be on the alert and discountenance and condemn the slightest whisper in favor of the oppression of foreigners or in exciting prejudice

How are the Funds to be Applied?

A correspondent informs us that we greatly mutake as to the use to be made of the funds that may be received at the Femals Anti Slavery Levee to be opened on Thursday evening. He states that instead of the funds being applied as we suggested probable, for the education and supplying the necessities of the children of poor Blacks in Canada they are to be in part, if not wholly applied to the payment of the expense of procuring political lecturers to come here from abroad to aid the plans and projects of a political party known as the "Liberty Party." Our correspondent is a good Whig-an anti-slavery man and has been disposed to aid and encourage the Female Anti-Slavery Society in their noble and holy work of providing for the comfort and education of the blacks who have located themselves in Canada, and need assistance. But he declares that he cannot consent to give his money or his Emprort to this society in their efforts to raise funds to aid a political party, especially when that party boasts of its strength and delights to pour out the vials of its wrath upon the Whigs, abuse their candidates and indirectly play into the hands of the foes of our common country, the loco focos.

#### The Game of Brag.

The false prophets of 1840, who so repeatedly declared that Van Buren would then be reelected, and who ridiculed the idea of any different result, although then signally disgraced as political prophets and readers of future events have gathered up fresh courage and offer themselves again before the people in a regular game of brag. Not a month since and these false prophets having failed in all their prophecies regarding the whole people, boldly ventured in what they thought a safer business of judging of the popular sentiment in their own party, and uttered their prophecies with an assurance and positiveness belonging only to truth. But alas! These late prophecies all proved false! And now, a regular system of brag has commenced, and these false prophets of locofocoism have terned teachers of brag, and instruct every man who will listen to them to commence and continue during the campaigu a system of brag -This whole matter is now well understood, and that the bragging is all done to order!

We have been amused frequently, when the braggers were looming up 'plenty large' and utturing big words as to their party prospects to observe a whig just ask them to remember the prophecies, and boastings of locofocoism in 1840. ble. Their wrath and courage ooze out like air from a punctured bladder. There is this difference between mere bragging and a real and well grounded hope of success. The bragger when the correctness of his conclusions are doubted at once flies into a passion—he is cross and easily nettled and inclines to impudence and abuse.-The man having good grounds of hope is at ease; if disputed he can give a reason for his confidence—he has no occasion for passion, no need of abuse, because if others do not agree with him, he is willing to wait the result having a confident hope that he is correct.

The leaders of the loco party persuade men, dependent upon their labor for support, to vote for Col. Polk, when by so doing they vote for a man opposed to the government affording protection to the free labor of the country and who openly advocates a policy which would inevitably result in flooding our country with the surplus productions of half starved foreign laborers, while the surplus productions of our farmers would be strongly restricted if not entirely shut out of foreign markets. If he should be elected the Tariff would be destroyed, an unequal trade opened, the profits of labor stinted, the enterprise of mechanics and farmers crushed, and the people made to groan under the ruinous measures and oppressive enactments of their rulers.

Against such measures and policy the whig party protests. 'They would have the industry and labor of the country encouraged and made prosperous and the laborer have the best reward for his toils and the largest recompense the government by a wise policy can give.

This elegant and spirited inditary association paraded in our streets on Monday and performed a great number of military movements in a neat and soldier-like manner, evincing a high state of discipline and skill. This was the first appearance of their new commander, Col. Cummings, and from their appearance we judge they have lost nothing in their enterprise or skill on account of the new position in which the military department of our government has been placed by the law of our Ssate. We noticed in the ranks some of the veterans in the cause of the militia, whose zeal never tire and whose presence in a military association give it life and spirit. It the patriotic ardor of our citizens can sustain in active operation, such companies as the Bangor Rifle Corps and the Bangor City Greys, the military arm will be in a better condition than any one would have supposed.

It appears to ne that the delegates at the Convention can better and certain the wishes of the whole people than any one man, in any part of the State; and better decide upon the best course to pursue in order to do justice to all. The article pleases us mainly on account of the well deserved tribute it pays to Mr. Severance, and on this account rather than any desire to influence the selection of a candidate for Governor do we publish it.

CONGRESS.

Correspondence of the N. Y. Express. Another Exciting Scene in the House. WASHINGTON, June 14.

The House met after an intermission of hine lours. The flag was raised union down, over this wing of the Capitol, which made me fear that the Texas resolution was going on within, but entering the Hall, I found the House busile engaged in no worse business than receiving Re-

ports from the standing Committees. A bomb was thrown into the Hall in the shape of a Resolution to grant the members of the present Congress the same books granted to members of a former Congress.

Mr Winthrop of Mass, introduced this resolution, and the scene of confusion was unparallelled by any previous disorder of the session, excepting the fight. Cave Johnson blew like a bellows, and shouted as much fire as a. blacksmiths work shop. Drumgoole was as strong as a young hurricant, while some score of others were flying about like waves in a tempest; nothing could exceed the general uproar. #### - WRIGHT'S Indian Vegetable Pills. The True Character of Counterfeiters and

Sellers of Counterfeit Medicines. O Medicine has been introduced to the American Public, whose virtues have been more cheerfully and universally acknowledged by

its vast popularity, and extensive circulation, than "WRIGHT'S INDIAN VEGETABLE PILLS." To descant upon their various virtues at this late season would be a work of supererogation, since

lew who peruse this article will be found unacquainted with the widely circulated proofs of the real excellence of the Medicine, to which many will be ready to add the testimonials of their own experience. But if further proof were needed of the value of the remedy it might be found in the fact that no Medicine in the market has been so shamelessly and repeatedly counterfeited. Ignorant, envious, avaicious, and unprincipled men, have in different places, manufactured a spurious pill, bearing a superficial resemblance to the true article, but composed either of impotent or deleterious ingredients, which they have sought to foist upon the public as the veritable
Indian Vegetable Pills.
These fraudulent Swindlers could never pass off

their vile wares upon the public but for the connivance and assistance of self-styled respectable Druggists, who, for the sake of a little " filthy lucre," lend themselves to the monstrous and unhallowed system of imposition. The counterfeiter of a popular medicine is more criminal than a counterfeiter of current money. The injuries done by the latter sink to nothing in comparison with those inflicted upon society by the former. We might paint him wringing the mite from the hard hand of invalid penury which is extended for the boon of health, and receives instead the vile drug that protracts and aggravates disease, or to view it in its best aspect, suffers it to rage unchecked. How melancholy is the reflection that thousands may have been hurried to the grave by having a counterfeit substituted for the true Medicine; who but for the venal fraud might now be living in high health, the delight and hope of the social circle.—All classes are interested in putting down these

Let the Stores where they are sold be marked and Shunned.

Let the virtuous indignation of the community administer to all concerned in these unfair practices a general and withering rebuke.

The public will please observe that the genuine Medicine has the following wording on the sides of the hove "WRIGHT'S INDIAN VEGETABLE PILLS."

—Indian Purgative— OF THE NORTH AMERICAN COLLEGE OF HEALTH.

And also, around the border of a label will be found in small type, "Entered according to Act of Congress in the year 1840, by William Wright, in the Clerk's Office of the District Court of the

Eastern District of Pennsylvania." It will be further observed that the printed direction for using the Medicine, which accompanies each box, are also entered according to Act of Congress; and the same form will be found at the

bottom of the first page. The slightest attention to the above few particuiars will serve to protect the purchaser from fraud, and save the lives of those who may otherwise be

endangered by using a Counterfeit Medicine.

The public will also remember, that all those who sell the genome Indian Vegetable Pills are provided with a certificate of Agency, signed by WILLIAM WRIGHT, Vice President

Of the American College of Health and that Pediars are never in any case allowed to sell the genuine article. Evidence of the good qualities of this compound, Dr. Hooper, in his Medical Dictionary, in allusion to a prominent ingredient in these Bitters, says-"It has been found very effectual in restoring di-A Prime Stock of W. India gestion, expelling flatulence, and removing costiveness, so common in sedentary life.

Dr. Lettsom, the most scientific physician in En-rope, says, on the same page—"In hysterical affections, it affords more vigor and relief than any other article before known." Dr. Bigelow, in the sequal to the U. U. Pharma-

copes says, page 311, in allusion to the same article It is one of the most valuable of the Bitter Tonics It has an invigorating effect on the stomach and bowels, and is peculiarly serviceable in dyspepsia." These Bitters contain as large a proportion of the Extracts of SARSAPARILLA AND TOMATOES, Asany bitters in the United States, and rank im-

measurably above all others in existence for creating an appetite, reviving the spirits, and strengthening the whole system. Why will you pay a high price for an article, when you can have every medicine suitable for such diseases to be found in the four quarters of the globe, for one quarter of the price. Orders have been received from nearly all sections of the Uni-

ted States, from British America, and the West-Indies. This is not surprising, for to prefer any inflammatory Alcoholic compound to this mild and pleasant decoction, would prove the consumers far behind the age in good taste, good habits and even civilization. Dealers will find it for their interest to pur

chase directly from the proprietors.
